

***2017 Vizsla Nationals Agility Fund Raiser Raffle
Canine Bio Pulse Bed by Respond Systems***

\$10 per ticket

Respond Systems Canine Bio Pulse Bed provides pain relief from common problems associated with hip dysplasia, arthritis, muscle, tendon or ligament injury, and old-age stiffness and soreness. PEMF can help your animal feel better, usually within 1-2 weeks. You will commonly see a difference in the way your dog gets up and around in the morning, with less stiffness, and more bounce to his step. You will notice your pet enjoys PEMF therapy, because they doze off as they are being treated. It is relaxing and pleasant. Many times, a dog will place the injured, sore area right on the PEMF bed, permitting full body treatments, all at the same time.

Tickets available from Susan Barrow, Carol Keller or Jamie Walton

Jamie@professionaldesign.org

Winner will be drawn at the South Coast Vizsla Club February 18 Agility Trial. 10% Discount is being offered on purchase of PEMF Beds from now until the SCVC February 2017 Agility Trial. Contact Jamie for details.
